ROYALTY WELCOMES THE AMERICAN SETTLER

HIS ROYAL HIGHNESS, THE DUKE OF CONNAUGHT, WELCOMES AMERICANS TO CANADA.

It was a happy speech, that on that benutiful October day, the Duke of Connaught, Governor-General of Canada, made at Macleod, Alberta. It was an opportune speech, heartful and resonant with good fellowship And, as it was specially intended for American ears, the audience, comprised largely of so many American settlers in Canada, the time and place could not have been better chosen.

It was in reply to an address of welcome tendered to him at the pretty city of Macleod, with the foothills of the Rockies as a setting, and the great wheat fields between, and in fact all around the place as the foreground, that His Highness, true to the best interests of the country and to those of the Americans who choose to make Canada their home, said in

"I am well aware that among those whom I am now addressing, there are a very great proportion who were not born under the British flag. Most of these will have realized by now that residence under that flag implies no disabilities. All we ask is that the laws of Canada should, be obeyed.

"With this provision every one is free to come and go, to marry, to live and to die as seems best to him, and as it pleases Providence.

"We bring no pressure to bear on anyone to adopt the Canadian nationality, for we do not value citizenship which is obtained under compulsion.

"Our American cousins are welcome from over the border. Thrice we welcome our Canadian and British brothers, who return to the Union Jack, after living under the Stars and Stripes.

"History is repeating itself. For many years hundreds of young Britishers have sought fortune in the western States. Time has brought about a change, and the tide has set in the other direction, bringing across the frontier numbers of our neighbors to whom we are glad to return hospitalities.

"One of the chief dispensers of such hospitality in proportion to its population has, as we have said changed its character from an important cattle town to a thriving wheat producing

"What it has lost from the picturesque point of view, it has gained in the material side, and I wish, in conclusion, to express the hope that the prosperity which has evinced itself here for the past ten years, may continue unabated in the future."

There is no reason why at a hundred places on this educative, instructive and interesting trip of His Royal Highness he might not have expressed himself in the same terms, and on each occasion, addressed large gatherings of Americans who are now settled on the prairies of Western Canada.-Advertisement.

The village tailor only received occasional orders from the vicar for such articles as hats, collars, or handkerchiefs. "You see," remarked the vicar one day, having called with his usual order, "when I want a suit I go to London. They make them there." Calling again a few days later, the vicar remarked that he had not seen the tailor at church lately.

"No," replied the tallor; "when I want to hear a good sermon I go to London; they preach them there."

During the negotiations for a settlement they decoyed the United States commissioners into an ambush (April 11) and massacred General Canby and some forty others. Fighting followed, and the Indians retreated to an almost impregnable position. They were finally surrounded and after a brave resistance surrendered. "Captain Jack" was captured, tried in June, 1873, and executed October 3.

Fitness for Marriage,

An idler in the New York Marriage License Bureau noticed that many of the applicants for a license carried bank books. "What's that for?" he asked. "A fellow doesn't have to prove his financial standing in this office before gaining permission to marry, does he?" "He does not," said a clerk, "but many of the people seem to think so. I don't know where they got the idea, but they have it, and scores of the foreigners bent on matrimony back up their other qualificaions with a bank book or sometimes even a roll of cash. Indian Queen Hopes to Marry Outside Race.

Juanita Ta-Ta-Ma, Esteemed the Richest Red Mailden in Oklahoma, Owns Valuable Oil Wells.

Sapulpa, Okla.-Juanita Ta-ta-ma. 'Queen of the Uchees," is declared to be the richest Indian girl in Oklahoma. The queen is 17 years old, a suffragist and believes that "fine feathers make fine birds." She is raising peacocks for the market. Her peacock ranch, situated six miles southwest of Sapulpa, is a little gold mine. Several male birds are valued at \$200 each.

Juanita lives with her father, but hopes some day to marry a white man and learn to drive an automobile, dress like her paleface sisters and take an active part in woman's battles for equal rights. She was crowned "queen" of the Uchee Indians at a recent corn dance near this city. Her string of beads, consisting of 125 elk teeth, is valued at \$10,000.

The Indian queen owns a quarter section of land in the heart of the oil district, and her royalties from oil are said to amount to several thousand dollars every month. One of the largest oil wells ever discovered was drilled on her allotment recently, which adds \$250 a day to her income. Twenty million cubic feet of natural gas is drawn from tals well each day, and experts predict it will continue to supply that amouth for the next ten years.
